

Will Out of County

The clerk may record a Will probated in another Kentucky county if an attested or certified copy of the Will and order of probate from the County Clerk in the county where the will was originally filed is presented, (KRS 394.300).

Prior to 1978 probate orders were not required. If a certified copy of a will from another county is presented for recording prior to 1978, do not expect it to have a probate order.
